Welcome

The first period of this school year is over! During this period, we have already learned a lot. We got to know the new teacher(s) and new children. We also became acquainted with Fides and the symbols associated with it. The team also worked extensively on this during the study day. You have probably already heard at home about the 1 balloon, the matryoshka dolls, the t-shirt with 'I am 100% good, and so are you,' the 'oops and okay' drawer. If you're curious about what this all means, you are warmly invited to the parent evening on February 6. There, we will not only explain how we work with the children, but also what you, as parents, can do or benefit from. Sign up quickly via the agenda in Parro!

On November 14, another parent evening is scheduled, during which we want to involve an expert in this field to discuss the opportunities and dangers of media and devices. This is also very valuable for parents of young children, as they, too, use or see screens that influence their lives daily. You can also sign up for this via the agenda in Parro.

We wish you a wonderful holiday and look forward to seeing you after the break.

Rianne & René

Fides-method

Dear parents/guardians,

This past Monday, as a team, we made great strides in getting to know the Fides Method, an approach that helps us further strengthen the continuity in our pedagogical actions at school. Fides works with powerful symbols, one of which is the **KEY RING**. The keys symbolize thinking in possibilities and perseverance in solving a problem or achieving a goal.

In light of this, we would like to make a special request: Do you have any old keys lying around? It doesn't matter if they are old or new, large or small—**all keys are welcome**. We plan to use the keys to make the symbolism of the key ring tangible within our school. If you have any keys that you no longer use, you can hand them in to Pepijn or your child's teacher. We hope to collect many keys!

Curious about the full explanation of the Fides symbols? We will share more about this during the parent evening on **February 6**. Have you already registered?

Kind regards,

Lorijn Corvers, Quality Coordinator

De Klimboom wordt 25!

In 2025, our wonderful school will celebrate its 25th anniversary!

This is, of course, a milestone that we will not let pass unnoticed. We are going to turn this into a fantastic event. You will hear more about it in due course.

DE KLIMBOOM

Register brothers/sisters

There is also room for brothers and sisters at De Klimboom! You can pick up an administration form from the management and return it to the school, completed and signed, from the time your child is 3 years old.

We like to know how many more children we can welcome

Student council

The new student council!

Each member is democratically chosen in each group. In addition to creating awareness among all children at De Klimboom about the influence they can exert on the world around them, children at the student council work even more specifically on general meeting goals. For example, they train their discussion skills; they learn to work with an agenda and minutes and they practice:

- Looking after (other people's/general) interests
- Weighing up interests
- Defending decisions.

The student council will keep you informed about the topics we discuss!

Parents' Evening Media Literacy

Webinar GGD Brabant-Zuidoost

Agenda/school calendar

Our annual agenda is included in Parro. In addition to all kinds of activities, you will also find the holidays, free Friday afternoons, etc.

Parro is set up in such a way that no history is displayed. You see the agenda from “today” and beyond.)
